

Fall Protection Equipment Inspection

Course Overview

- Governing legislation
- Standards bodies
- Manufacturer's requirements
- Equipment markings & tracking systems
- Proper record-keeping
- Maintenance & storage principles
- Specific equipment inspection processes
- Hands-on workshops

Course Code: 6222 | Duration: 4 Hours

Course Description

This half-day program is for individuals who may be responsible for establishing and maintaining fall protection equipment inventory.

The course instructs participants on how to conduct formal equipment inspections on personal arrest system components. The course will consist of combination of practical and theoretical learning approaches.

Equipment inspection will comprise a major component of the course's content, but other aspects of equipment care will be taught to ensure that students can properly implement and manage an equipment program.

Course prerequisite: 6218 Fall Protection Comprehensive
